Building communities. | Impacting lives.

CLEARWATER SOLUTIONS, LLC provides management, operations, and maintenance (O&M) services for water and wastewater treatment, distribution, and collection systems, as well as full public works. Since 2007, we have partnered with municipalities, county governments, water and wastewater boards, and private organizations to provide knowledgeable O&M solutions for their systems. Our professional staff and availability of resources enable us to provide our clients with efficient and cost-effective services to meet both short and/or long-term needs.

ClearWater Solutions is led by a seasoned team of managers with more than 300 years of combined experience in the field. We are committed to following our projects through to completion, paying close attention to detail, ensuring quality and performance, and addressing any needs in a timely manner. We are dedicated to our clients and to the communities we serve. Our hands-on approach allows us to constantly re-examine the way we work so that we can provide services in the most effective manner possible. Our ability to approach problems from a unique perspective has led to many innovative and cost-effective solutions and has earned each of us recognition within our profession.

O&M SERVICES FOR:

- Wastewater Treatment Plants
- Collection Systems and Pumping Stations
- Water Treatment Plants
- Tank Maintenance
- Flow Monitoring
- Residuals Treatment and Disposal (Sludge/Biosolids)
- Distribution Systems
- Industrial Pretreatment
- Solid Waste
- Public Works

CWS PROJECT LOCATIONS

Our expertise in O & M services, coupled with our engineering resources, allows ClearWater Solutions to provide each and every client with an individualized package of services. The leadership of our team is comprised of certified water and wastewater operators, as well as licensed engineers with backgrounds in serving municipal clients and utility boards. Each member of our team was specifically chosen for their expertise and strengths in the industry. ClearWater Solutions brings engineering expertise, as well as a hands-on operations experience, to our clients and their projects. By blending these, we can resolve utility challenges from a more cost-effective approach.

In addition to the CWS in-house staff, we have an unmatched depth of resources available from our parent company - Goodwyn, Mills and Cawood. With more than 73 years of experience, Goodwyn, Mills and Cawood has provided planning, design, and construction services for thousands of water and sewer system projects across the Southeastern United States. The seasoned professionals of GMC are readily available to assist our team with any engineering services necessary.

WHY CHOOSE CWS?

Our company offers a comprehensive menu of services that is tailored to meet the needs of each and every client. While CWS is large enough to provide the depth of staff and financial resources necessary to ensure a successful project, we are small enough to remain flexible, with no “red tape”, and commit the personal service that our clients appreciate.

What do you get when you partner with CWS? In addition to the standard compliance and preventative maintenance goals on which all companies focus, CWS goes above and beyond to take care of our clients and the communities in which we serve. Here are 10 value added benefits that make CWS unique among other companies in our industry.

1. Cost Savings
2. Smooth Transitioning
3. Grant Funding Expertise
4. Support for Emergency Situations
5. Industry-leading Safety Program
6. Exceptional Employee Benefits
7. In-House Employee Training Program
8. Community Involvement & Investment
9. Additional Capabilities such as CCTV, Flow Monitoring, Engineering, Capital Improvements
10. No Hidden Fees

WHAT OUR CLIENTS ARE SAYING ABOUT US....

“ClearWater Solutions has been the perfect partner with us at the City of Port Wentworth. They have assisted the city in eliminating several service contracts by performing those duties in house, while saving the city money and increasing the quality of services at the same time.”

Gary Norton, Mayor
CITY OF PORT WENTWORTH, GA

“Our plant operation was in real trouble when we contacted CWS. The plant manager and two long time employees were retiring and we did not have a hiring pool of qualified people to replace them. We contacted CWS and they presented us with several proposals one of which included a plant manager with experience. We selected a plan where CWS took over complete management of our operation. To say we are pleased with what they have accomplished for us would be an understatement. They practically saved our operation and at a price we could afford. Though we are a small operation, CWS treated us professionally providing advice and solutions to all our problems. I would highly recommend CWS for any operation large or small.”

Robert Williams, Chairman
UNION SPRINGS UTILITY BOARD, AL

“ClearWater Solutions and their team of qualified professionals go above and beyond the call of duty when it comes to the water and sewer needs of the City of Gautier and its residents. ClearWater works quickly and diligently in response to any water or sewer issue in the City. ClearWater Solutions has provided a high quality service in a professional manner to city staff and the citizens of Gautier.”

Ramona Morgan, Contracts Administrator
CITY OF GAUTIER, MS
